informing your customers, both present and
future, of details concerning your company
products, head office and branch plant ad-
dresses, warehouse locations, telephone
numbers, agents, distributors, cable codes

portant information that brings buyer and

each product heading for your company
cross-referenced to the advertisement page.
Only the INDEX among Canadian industrial

GUIDE INDEX COMMERCIAL CANADIEN

2ème SECTION

Commençant à la page B-3, sur papier vert, se trouvent les noms et les adresses des manufacturiers.

3ème SECTION

Commençant à la page C-3, se trouve la Section de renvois géographiques. C'est une liste alphabétique par province. Chaque municipalité est cataloguée dans l'ordre alphabétique sous le titre de la province dans laquelle elle se trouve. Les compagnies sont cataloguées alphabétiquement sous le titre de chaque municipalité.

La population de chaque province est indiquée après le nom de la province. Le nom de chaque ville ou village est suivi du nom du comté ou autre indication du district ainsi que du nombre de la population. Le signe † indique le siège de l'entreprise. Toutes les autres adresses doivent être considérées comme usines.

4ème SECTION

Commençant à la page D-3, se trouve la liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.

Le mot principal est ordinairement placé le premier; il est suivi, dans certains cas, d'un déterminant qui en précise le sens, v.g.: "Furniture, office"; "Hardware, builders' "; "Leather, boot and shoe upper", etc. Il y a des cas où cela n'est pas possible et où il faut placer le déterminant en premier, v.g.: "Air appliances"; "Fire escapes", etc. Dans la section française, on a suivi la même méthode et le déterminant est le plus souvent entre parenthèses, v.g.: Bouilloires (thé); Chaudrons (vernis), etc. Lorsque deux noms différents désignent un même article, un renvoi est ajouté. On trouve l'adresse des fabricants dans la partie verte commençant à la page B-3. Un astérisque* indique que le fabricant fait le commerce d'exportation ou qu'il y est intéressé.

5ème SECTION

Commençant à la page E-2, se trouve une Section Spéciale où paraissent les noms et les adresses des Maisons d'exportation, des Maisons d'expédition de même que des Producteurs de produits agricoles. La traduction française des rubriques de cette section se trouve sur la page suivante.

6ème SECTION

Dans les pages suivantes la Section de Traduction Française commence. Les noms des articles donnés dans l'Index Français sont suivis par leur équivalent en anglais, et l'équivalent anglais se trouve placé alphabétiquement dans la 4ème Section.

European SalesmanShip

We've got 17 all-cargo flights a week to all of Europe.

Combine that with over 40 cargo-carrying passenger flights and you could have quite a sales force.

Anywhere in Europe.

Our cargo fleet can help you get into a new market, sell and keep on supplying it, in accordance with the day-to-day needs of the market.

When it comes to cost, think of our cargo jets as really good salesmen. Their costs are higher because they can sell much more. Because they can investigate and react to market conditions more quickly.

So the next time you're looking for a really good sales representative in Europe,

give us a call. Our salesmen are always available.

And they can carry a lot of weight.

A gold mine of superbly organized, accurate information.

Here's how JIT makes you a commercial expert on Japan in minutes! To get information about any product made in Japan, simply check the product index. In seconds, you'll know every single company and firm involved. Suppose you only know the brand name. Simply check the brand index for complete, accurate data about the manufacturer. If you know the maker, glance at the manufacturer's index for a rundown on all the firm's activities.

Should you want to know what a particular importer or exporter handles, just locate the name in the importer/exporter index.
